Broad Description of Product	<p>NHS Trusts use the information to support and improve their wait-list times and provide you with the best care within the most appropriate timeframe.</p> <p>The relevant healthcare information used in this system is collected within the trust and utilised to identify the actions that the Trust can take to accelerate your care pathway. Only healthcare professionals and appropriate support staff will have access to your information to provide you with care.</p>
Use Case	Elective Care
Controllers who use this Product	The following NHS Trusts are using this Product: Salisbury Foundation NHS Trust

The purpose for processing your personal data

The Referral to Treatment Validation Tool processes personal data including health data to support the better coordination of planned treatment, which we call elective care.

The aim is to improve the delivery of planned treatment through better use of the information that the NHS Trust ("**Trust**") holds, making sure the data is valid and accurate, and that the Trust can use the information to improve on the waiting times for elective care in the wake of the COVID-19 pandemic.

The RTT validation tools allows healthcare professionals and appropriate support staff to review your health data in relation to your treatment within the hospital in one place to ensure that they

<p>Who your data is shared with</p>	<p>Staff Health care professionals who are providing direct care and support staff who need to administer your care journey.</p> <p>Other organisations Personal data will not be shared with any other organisations. Aggregate data will be shared via reports to the local Integrated Care Board and NHSE to allow for planning and service improvement</p>
