	Clinical Governance Committee	Committee Meeting Date:	23 October 18
Status:	Information	Discussion	Assurance
			Approval
Prepared by:	Claire Gorzanski, Head of Clinical Effectiveness		
Board Sponsor (presenting):	Professor Jane Reid, Non-Executive Director		

Recommendation
To note the items for escalation and the mitigation in place.

Items for Escalation to Board
<p>Items for escalation from the October 2018 Clinical Governance Committee:</p> <ol style="list-style-type: none"> 1) Positive assurance – an update on the achievements of the national maternity patient survey improvement actions. The survey results were some of the best in the country. 2) Positive assurance – improvements in end of life care as an outcome of personalised care planning, education and support for patients and families from specialist nurses. 3) Funding the Hospice in 19/20 – will receive £140K less from the Hospice charity. Issue to be formally raised with Wiltshire Clinical Commissioning Group. 4) As predicted the number of pressure ulcers reported has increased as an outcome of the new national guidance categories. 5) Prostate cancer pathway improvement actions planned to reduce the number of 104 and 62 day cancer referral to treatment time breaches.
