| Recommendation |
|-----------------------|

The Board to note the points below:

The Committee received a report from TIAA updating outstanding counter fraud items. The two incidents discovered of timesheet fraud by agency staff are now closed. For the staff agreed that Grant Thornton would conduct the 2018/19 audit, un following the resignation of BDO in October

. Subsequent to the meeting, contractual arrangements were finalised.

There was a “deep dive” process review of business planning. The committee agreed that the internal processes were robust, within the constraints of those external factors that it was subject to.

The committee received an update on implementation of GDPR within the Trust. Progress made has been very good and the Trust is on track to be fully compliant by the end of the fiscal year. It was noted by PWC that the Trust is markedly ahead of their other NHS clients. The committee complimented management on the progress made and rigour with which the process has been pursued.
